All persons who wish to donate towards the annual contribution of towels made by the Women's Christian Temperance union to the Cottage State hospital are asked to leave their donations at the home of Mrs. Edmund Dunn in South Prospect street, as soon as convenient.

The I. H. N. class of the First Methodist Episcopal Sunday school will meet Friday night at the home of Mrs. F. W. Wright in Will's road. All members are invited.

Large and enjoyable was a well appointed dance given last night in the Elks' auditorium by Connelleville Lodge of Elks. About one hundred and four couples attended and spent a most enjoyable evening. Patriotic appointments prevailed and during the evening a buffet luncheon was served. Kiefer's orchestra furnished the music. A number of out of town guests attended. The large auditorium has been neatly renovated and with its attractive decorations presented a very pretty scene.

The W. C. T. U. of South Connelleville will meet tomorrow afternoon at 2 o'clock at the home of Mrs. Ida Seaman.

At the regular meeting of the Women's Benefit association of the Macabees held last night in the Moose hall four applications for membership were received and two new members were initiated. It was reported that the "army" is still in the lead in the victory contest for membership. During the influenza epidemic, 26 members of the order were reported ill, one death occurring that of Mrs. Alva Blay. Mrs. Pauline Gallagher, a member, volunteered to assist the Red Cross in nursing the sick. Mrs. Sarah McCormick presented the association with an American flag and the flag of the order. A meeting will be held sometime next week to plan for a bazaar to be held in the near future.

The regular meeting of the Ladies Aid and Missionary society of the United Presbyterian church will be held tomorrow evening at 7:45 o'clock in the church. The meeting is an open one and all are invited.

The Business Girls' organization will meet Thursday evening in Odd Fellows' Temple for important business.

FEAR IS THAT MANY SOLDIERS WILL HAVE NO CHRISTMAS CHEER

Now That War Is Over Contentions Is That Ruling About Labels Should Be Modified.

While Christmas package labels from soldiers overseas have been arriving in considerable numbers for several days there is a rather general feeling that under the government arrangement of "no label, no shipment" many of the boys will go without Christmas cheer from home. Now that the war is over there is also a feeling that the order should be modified.

Ralph B. Hyatt, chairman of the Christmas Parcel committee, advises friends and relatives of soldiers who have received the necessary Christmas package labels for overseas packages to mail the packages as soon as possible. It is absolutely essential that this matter receive prompt attention. The work of inspection, weighing and wrapping progressed nicely last week under the inspection of Miss May Gilmore, Miss Susan Gilmore and Miss Anna Mary Colborn, but on account of the reopening of the schools these ladies were unable to serve longer.

Miss Martha Schmitz volunteered her services for the present week and was appointed assistant inspector. She will be in charge during the afternoon hours.

Mrs. W. P. Sherman and Miss Mary Raupach were appointed assistant inspectors and will continue in charge in the postoffice building each evening. The inspection rooms are open during the afternoon from 1:30 until 5, and in the evening from 7 to 8:30.

To help out those who are puzzled as to what can be sent in a box 34x9 inches, and not weigh more than two pounds, 15 ounces unwrapped, the committee has prepared a list of suggestions of articles that will pass inspection. These include cigars, cigarette case, stogies (the boys are unable to secure stogies over there), cigars, tobacco, pipe, candles, chewing gum, shelled nuts, raisins, dates, dried fruits, tea, bouillon cubes, malted milk, fruit cake (wrapped in tissue), cookies, lump sugar, pins, comb, brush, safety razor, trench mirror, tooth brush, tooth paste, shaving cream, shaving stick, cold cream in tubes, talcum powder, razor blades, soap, scissors, handkerchiefs, mending tape, socks, foot warmers (woolen), wristlets, playing cards, games, puzzles, writing paper, pencils, fountain pen, small folding kodak, films (should be dipped in paraffine), baseball, Testa-moni.

Parcels are not held at the Red Cross rooms until the 20th of the month, the last day of mailing, but are delivered to the postoffice daily by Mr. Hyatt.

REPORTED MISSING

LEWIS LENHART WRITES

Somerfield Boy Well Supplied in German Camp But Very Lonely.

Lewis Lenhart, son of Mr. and Mrs. G. W. Lenhart of Somerfield, is recovering every attention by the Red Cross at the German prison camp at Gleissen, according to a letter to his parents, dated August 18. He says:

"Did not receive any letter paper from Gleissen this week so have to use some I had on hand. We surely have been receiving plenty during the past week. For several weeks our boxes were late in coming and last week they came all at once. Received my sixth box Tuesday and my seventh yesterday. Also received clothing yesterday from the Red Cross. Am well supplied now in everything but soap. I need toilet and washing soap very much, but will get along very nicely.

"Quite a few of the fellows received their first mail last week but I can't expect any yet because I didn't send any address till July 7. I surely would like to hear from you and all the rest. I often wonder what you are doing and thinking about. I can't write to my many friends but

I often think of them and when you see them remember me to them and tell them to write for it is awfully lonesome away over here without any word from back home. I wish I might write of many other interesting things but I am not permitted to, so I will close for this time with lots of love."

INSTANTPOSTUM

YANKEE SOLDIERS UNWILLING TO LEAVE BASEBALL PARAPHERNALIA FOR GERMAN

Playing Championship Game Behind the Firing Lines in France.

Next to rifle, ammunition and canteen, American soldiers seem to rank baseball supplies among the list of the necessities of life in the front lines. At least such was the decision of a Yankee unit operating with the French forces lately. It happened that this unit got into a very hot corner and the order came to retreat.

The necessity for haste made it impossible for the men to carry much with them in the way of personal belongings, but when they arrived at a station out of immediate danger it was found that the baseball paraphernalia had been saved, while many kinds of personal belongings had been sacrificed.

The balls and gloves had been furnished by the Y. M. C. A. and the men took it upon themselves to carry them in preference to their own little luxuries.

As soon as the unit had reached a quiet place the supplies were turned over to the Y. M. C. A. secretary, who was immediately called on to release them for a game. The tide of war ebbs and flows apparently, but baseball goes on forever.

FRENCH WILL PLAY BASEBALL

Ministry of War Orders Systematic Instruction in Army—French Instructors Training.

Systematic training of men to play baseball will be organized throughout the French army by the Young Men's Christian association, following the formal request of General Cottet of the ministry of war. Eight centers already have been established to train French instructors, and these centers are expected to furnish enough teachers to cover the entire French army.

Baseball instruction in the French army has been placed under P. R. Carpenter of Worcester, Mass. The rules of the game have been translated and will be distributed among the soldiers.

"I consider this game constitutes excellent exercise, develops precision and quickness of eye and is an attractive

General Vidal, One of Pupils of Johnny Evers, Throwing the Ball.

pastime," said General Cottet in his request that the game be adopted.

Johnny Evers, the former National league second baseman, recently visited General Vidal's headquarters at Besancon, where he demonstrated the game to the officers' school. After nine days of instruction the young cadets played a five-inning game.

"They were particularly impressed with our manner of throwing a baseball, for it is more efficient than the present French method of throwing grenades, which is done straight arm," said Evers.

"DRIVE" IN BASEBALL LINGO

Bayonet, Camp Paper, Tells Soldiers All About Big Battle—Went in Standing Up.

The Bayonet, the publication issued by the soldier boys at Camp Lee, takes the following view of the first American drive, describing it entirely in baseball lingo.

"The first American drive was like going to first base. Didn't have to hit the dirt; just went into the bag standing up. The delivery was too fast for the Huns, and there was promiscuous use of the bean ball. Although it was like trying out new pitchers, they showed promise and are backed by any number of veterans to take up the work if any wavering symptoms should show. Only the top of the batting order was used, and there will be some stugging before the game gets much older. From the way the batteries are going it looks as if the Hun side will be retired on strikes."

HONOR FOR FRED JACKLITSCH

Former Brooklyn Catcher Appointed Athletic Director of Armed Guard at Brooklyn.

The appointment of Fred Jacklitsch, former catcher for the Brooklyn National league nine, to the post of athletic director of the Brooklyn Armed Guard, is announced by Walter Camp, head of the athletic division of the navy commission on training camp activities. Jacklitsch has for more than 20 years been engaged in various athletic pursuits. Besides playing professional baseball for more than 16 years, the newly appointed director is regarded as a top-notch basketball, football, volleyball and baseball coach.

MOUNT PLEASANT SCHOOLS REMAIN IDLE NEXT WEEK

Board of Education Believes It Will Be Better for Pupils.

WAR WORK CAMPAIGN RALLY

Hundred Tenth Regiment Men Home on Furlough, Wounded, and Others Speak; Parade Headed by Municipal Band Stirs Up Interest in Meeting.

Special to The Courier.
MOUNT PLEASANT, Nov. 12.—The school board held a meeting on Monday evening and decided that the local schools would be closed down indefinitely. It had been decided to reopen next week but the board thinks that a large number of parents would not allow their children to attend and this would put them back of the other students, making some confusion in the lessons of the students.

Boost War Work.
The United War Work campaign committee held a mass meeting in the armory last evening to further the campaign. Burgess S. P. Stevens was chairman of the meeting. Speakers of the evening were Private Harry Cain of Company E, 110th Regiment, who had been sent to a hospital here and who is at his Diamond street home on a furlough; Corporal Truxal of Greensburg and V. M. C. A. secretary Bae and Attorney Paul H. Galbreath of Greensburg. The Municipal band paraded the streets to get a crowd at the armory. Banners were carried for the campaign. A very enthusiastic audience was in attendance.

WOMEN SUFFERERS MAY NEED SWAMP ROOT

Thousands upon thousands of women have kidney and bladder trouble and never suspect it.
Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.
If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.
Pain in the back, headache, loss of ambition, nervousness, often times symptoms of kidney trouble.
Don't delay starting treatment. Dr. Kilmers' Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.
Get a medium or large size bottle immediately from any drug store.
However, if you wish first to test this great preparation send ten cents to Dr. Kilmers & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Conneltsville Daily Courier.—Adv.

FOOTBALL STARS FIGHT HUN

Puntius, Weeks, Borske and Sharpe Are Among Michigan Players Serving as Officers.

Brute Puntius, one of the best tackles Michigan ever had, is now a lieutenant in the regular army, breaking up the Hun's mass plays. Hal Weeks, the 1905 half, is captain in the engineering corps, and so is Stan Borske, and in 1910. Halback J. Sharpe is a lieutenant in the same service.
Pat Smith, Tank Wilman, Sparks, Zeigler and Weston are all in aviation. Maggoffin, captain in 1907, and Carpel, halfback in 1911 and 1912, are both flying. Runner, another of the 1907 team, is a major in the ordnance department, and Barton, end of the 1913 team, is a lieutenant.

Stomach Misery

Get Rid of That Sourness, Gas and Indigestion.
When your stomach is out of order or run down, your food doesn't digest, it ferments in your stomach and forms gas which causes sourness, heartburn, flatulence, pain at pit of stomach and many other miserable symptoms.
Miso-na stomach tablets will give joyful relief in five minutes; if taken regularly for two weeks they will turn your flabby, sour, tired stomach into a sweet, energetic, perfect working one.
You can't be very strong or vigorous if your food only half digests. Your appetite will go and nervous, dizzy, biliousness, nervousness, sick headache and constipation will follow.
Miso-na stomach tablets are small and easy to swallow and are guaranteed to banish indigestion and any or all of the above symptoms or money back. Sold by A. A. Clarke and all leading druggists.—Adv.

SPANISH INFLUENZA

Do Not Fear When Fighting a German or a Hun!
By DR. M. COOK

The cool fighter always wins and so there is no need to become panic-stricken. Avoid fear and crowds. Exercise in the fresh air and practice the three C's: A Clean Mouth, a Clean Skin and Clean Bowels. To carry off the poisons that accumulate within the body and to ward off an attack of the influenza bacillus, take a good liver purgative to move the bowels. Such a one is made up of May-apple, leaves of aloë, root of jalap, and is to be had at any drug store, and called "Pleasant Purgative Pellets."

If a bad cold develops, go to bed, wrap up well, drink freely of hot lemonade and take a hot mustard foot-bath. Have the bedroom warm but well ventilated. Obtain at the nearest drug store "Antric Tablets" to flush the kidneys and control the pains and aches. Take an "Antric" tablet every two hours, together with copious drinks of lemonade. If a true case of influenza, the food should be simple, such as broths, milk, buttermilk and ice-cream; but it is important that food be given regularly in order to keep up the patient's strength and vitality. After the acute attack has passed, which is generally from three to seven days, the system should be built up by the use of a good tonic, such as "Ironie" tablets, to be obtained at some drug stores, or that well known blood-maker and herbal tonic made from roots and bark of forest trees—sold everywhere as Dr. Pierce's Golden Medical Discovery.—Adv.

LITTLE TALKS ON THRIFT

By S. W. STRAUS
President American Society for Thrift

In considering the value of thrift, it must not be looked at from the standpoint of war alone. It will be as necessary and as valuable in America after the war as it is now when it is playing so substantial a part in hastening the day of victory for us.
Someone has estimated that the war is costing America \$41,482 a minute. The human mind cannot grasp the stupendous burden of the war even if we brush aside all considerations save financial ones alone. If the war lasts until the end of next June, it will have cost America approximately \$48,700,000,000. Thus with the piling up of a prodigious war debt, it is at once apparent that the American people must be prepared to practice rigid habits of thrift long after the days of conflict are over.
After the war is over, the process of bringing home our millions of troops from Europe will require at least many months of time and additional millions of dollars. There is a possibility that it will take as long to get the troops back as it has to get them over. No one knows how long they will be kept under arms before being mustered out of service and allowed to resume the pursuits of peace. Opinions may vary as to the economic conditions that will

GOVERNMENT IS READY TO TRAIN WAR'S MAIMED

Free Education to Equip Soldiers and Sailors For Vocations.

FOURTEEN OFFICES OPEN

As Applicants Qualify Positions Will Be Secured for Them; Vocational Board Cautious Against Men Drifting Into Low-Grade Occupations.

By Associated Press.
WASHINGTON, Nov. 13.—Fourteen offices of the United States to receive the applications of disabled soldiers and sailors of the American army and navy for free education to equip them for the vocations for which they are most fitted. These offices have been established by the Federal Board for Vocational Education and are in the following cities: Washington, Philadelphia, New York, Boston, Atlanta, New Orleans, Cincinnati, St. Louis, Dallas, Denver, Chicago, Minneapolis, San Francisco and Seattle.

At each office are stationed men to advise the disabled fighters as to what they are entitled to receive, a medical officer and a man to obtain employment for them when they are ready to go to work. It is promised by the Federal Board that applications will be sympathetically considered with the best interests of the disabled man in mind.

While receiving reeducation the government will pay the disabled man \$65 a month and in addition will provide him with the funds necessary to pay educational fees.

During his training period allowances will be made by the government to his dependents such as wife, children and mother.

When the disabled man has finished his training the Federal Board promises to have employment ready for him. After he has gone to work again his compensation from the War-Risk Insurance Bureau begins and will continue unaffected by the amount of his earnings.

In making these announcements the Federal Board of Vocational Education states:

"The worst mistake a disabled man can make is to drift into a low grade, unskilled occupation. Without any training he must compete with the normal man in a line of work where brute strength and physical fitness alone count and there can be no doubt as to the outcome when work becomes slack. Every consideration requires that a disabled man should obtain permanent employment at a desirable age in the position for which he is best fitted or for which he can become best fitted. Otherwise his career will consist of alternate periods of more or less undesirable employment, idleness, trying to live on his pension and picking up an occupation. No self-respecting veteran of this great war can afford to be placed in this position. There is only one escape by which these men may make their future secure and that is if training is necessary, to obtain it through the Federal Board of Vocational Education."

AN EASY WAY TO BANISH PIMPLES

If you are troubled with pimples, blackheads, acne, barber's itch, blotches, freckles or other skin disease or blemish, now is the time to get rid of it with HOKARA.

This pure and simple skin healer is being introduced in Conneltsville by A. A. Clarke at the low price of 35c for a liberal sized jar, and they have sold hundreds of treatments.

It contains no grease or acids, is clean to use and is a true nourishment for the skin, cleaning and clearing it in every pore, making it soft, white and beautiful.

If HOKARA does not do even more than is claimed for it and give perfect satisfaction, return the empty jar to A. A. Clarke's Drug Store and they will refund your money. If you have any skin trouble, you cannot spend 35c to better advantage than for a jar of this skin food.—Adv.

7,000,000 TONS OF COAL SAVED ANNUALLY BY EFFICIENT FIRING

As Announced as Result of the Fuel Administration's Campaign for Saving in Power Plants.

Through the cooperation of the industrial power plants, which have thus far put into force the standard recommendations of the United States Fuel Administration to promote efficiency in the use of fuel in power plants, a saving of 7,000,000 tons annually has been effected, says a bulletin of the Fuel Administration. That is to say, in the first six months from the announcement of the national program, 3,500,000 tons have been conserved, at the same time maintaining maximum production in the factories. The largest savings have been in the following states: Massachusetts, Pennsylvania, New York, Connecticut, Illinois, New Jersey, Michigan, Minnesota and Wisconsin.

Some industrial plants which have

adopted the standard recommendations and kept systematic records report a fuel saving as high as 25 per cent, and the average is estimated between 10 and 15 per cent. This large economy is effected at practically no expense to the plant owner since the recommendations treat primarily of proper methods of firing and management in power plants.

A Fuel Administration campaign comprehends voluntary service by engineer inspectors, lectures to fuel conservation classes in educational institutions, addresses before public meetings, explanations of the program to power plant owners and various forms of printed matter and posters.

For the efficient execution of the program of industrial conservation, under the plan developed, the engineers of the country have been mobilized through the professional societies and the operating engineers and firemen, and as a result there are today 1,500 volunteer engineer specialists and power plant men organized by states, inspecting power plants, classifying them according to their operating efficiency, and aiding the work of rapid development. As a direct result of the operation of this plan, it is estimated that the total annual saving brought about the country will be about 25,000,000 tons of coal without reducing the output of the factories. Special printed material, instructing on the proper use of fuel has been prepared by the United States Fuel Administration and may be obtained free of cost upon application.

The campaign has been organized in consultation with the state administrators, the Bureau of Mines, and the committee of consulting engineers of the Engineering Council, which represents the four national engineering societies.

DULUTH WORKS

Of the United States Steel Corporation to be Expanded.

The United States Steel Corporation is preparing to expand manufacturing facilities at the Duluth works, to the end that the Western and Canadian markets may be supplied with finished steel products made, practically on the spot. It is understood that a new tin plate mill, a sheet mill, and wire and nail mills will be put up, the whole to be in the neighborhood of \$15,000,000.

Construction is not to be started until the government's demands for steel are less, which probably means after the end of the war.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

DRUGGISTS STILL ASKED TO CONSERVE STOCKS OF VAPORUB NEEDED IN "FLU" DISTRICTS

Influenza Epidemic is Decreasing in Most Sections and the Demand is Slackening But We Are Still 18,000 Gross Behind on Orders and It Will Take Some Time to Catch Up.

THREE MILLION JARS
SHIPPED DURING
OCTOBER

On Monday, October 21, we addressed an advertisement to the wholesale and retail drug trade, advising that we were badly oversold, due to the influenza epidemic, stating that all retail and quantity shipments were postponed, and requesting that Vaporub be purchased in small lots only. This condition still prevails.

At this writing we have back orders for eighteen thousand (18,000) jars and our orders each day are available our daily output. The epidemic, however, is decreasing in most sections, the demand is slackening and we are working night and day to catch up. In the meantime, we ask the trade to be patient with us.

RECENT SHIPMENTS HAVE
WIPED OUT STOCKS.

On October 1st we had on hand at the factory and in twenty warehouses over the country a tremendous stock of Vaporub, accumulated during the summer months. This is now gone.

we actually shipped during the month of October over three million jars of Vaporub. We are speeding up our factory as much as possible and the problem now is to distribute the factory's output as quickly as possible.

We have, therefore, for the time being, abandoned freight shipments and are shipping either by Parcel Post or express—trying to give each jobber at least a little stock.

IMMEDIATE SHIPMENTS TO DRUGGISTS IN INFLUENZA DISTRICTS.

Preference is being given to those sections stricken by influenza. In order to reach these sections as quickly as we can, we are, during this emergency, making shipments by Parcel Post, direct, to the retail trade of not more than three (3) dozen 30c size in any one shipment. We prefer that the jobbers order these shipments for their trade, but to save time we will, if the need is urgent, ship direct on receipt of check or money order.

Naturally, no new accounts can be opened during this rush.

SAMPLES AND INFLUENZA BOOK-LETS FREE ON REQUEST.

We have prepared a little folder giving all the information available so far on Spanish influenza—its origin—the symptoms and the treatment.

THE VICKI CHEMICAL COMPANY,

and there will be forwarded to druggists on request. We will also be glad to mail to any individual one of these booklets, together with a quarter-ounce sample, free.

HOW TO USE VAPORUB IN TREATING SPANISH INFLUENZA.

In every case call a physician. Vaporub should be used only in connection with the physician's internal treatment.

Apply hot, wet cloths over the throat, chest and back between the shoulder blades to open the pores. Dry lightly and rub Vaporub well in until the skin is red—spread on thickly and cover with hot flannel cloths. Leave the bed coverings loose around the neck, as the body heat releases the ingredients in the form of vapors. These vapors, inhaled with each breath, stimulate the lining of the air passages to throw off the influenza germ. In case of head or chest colds, which often accompanies influenza, the vapors tend to keep the air passages open, loosen the phlegm and make the breathing easier. In addition, Vaporub is absorbed through and stimulates the skin, attracting the blood to the surface, and thus aids in relieving congestion within.

HOW TO USE VICKI'S VAPORUB AS A PREVENTIVE.

It is questionable if there is anything which will prevent Spanish influenza, except avoiding those persons who are spreading the disease by coughing, sneezing and spitting, and by keeping up the body's resistance by plenty of good food and exercise in the open air. The Public Health Service recommends that, in case of a cold, one should keep the head and neck wrapped in a towel from time to time during the day and snuff well back into the head.

KEEP FREE FROM COLDS BY INHALED VAPORUB.

Colds irritate the lining of the air passages and thus render them a much better breeding place for the germs. At the first signs of a cold use Vaporub. Rub it on the chest, throat, back and inside the vapors, or Vaporub can be used in a regular benzoin steam kettle, such as most druggists carry in stock. If this is not available, a very good substitute to use is an ordinary tea-kettle. Fill half-full of boiling water—put in half a spoon of Vaporub from time to time—keep the kettle just slowly boiling and inhale the steam arising.
